Association Ter-Mer Rodriguez

Training to empower Rodriguans to tap opportunities in Green Economy sectors

Ter-Mer Rodriguez Association is partnering with the Commission for Environment, Rodrigues Regional Assembly to implement the project "Developing Capacity for the Implementation of Green Businesses in Rodrigues". This project is being implemented as part of the EU funded Switch Africa Green Program in collaboration with UN Environment, UNDP and UNOPS. A consultant has been recruited to provide multi-disciplinary training to empower Rodriguans to tap opportunities in Green Economy sectors. The theoretical concepts will be applied to address real life problems in Rodrigues including sustainability audits of Gites in the tourism sector.

The training will cover the following themes:

- Energy and water efficiency though audits and retrofits.
- Self-consumption of Renewable energies from grid tie and off grid systems
- Passive solar building design to achieve thermal comfort
- Waste recycling and management
- The role of green buildings in sustainable tourism in Rodrigues

Trainees should have a preliminary training in Science, Engineering or Technical trades. Unemployed graduates motivated to become Eco-Entrepreneurs are encouraged to apply. Experienced technicians wishing to learn about emerging opportunities in Green Economy sectors are also welcome. The selection of trainees will be made based on prerequisites and motivation towards application.

In parallel to the recruitment of trainees Ter-Mer Rodriguez Association is inviting owners of gites to apply for a sustainability audit to be carried out by the trainees under the supervision of the consultant. The selection of gites will be made on the potential for application of green concepts.

Please submit filled relevant application form available at http://rra.govmu.org to termerrodriguez@gmail.com by 11th September 2017.

Trainee candidates should also send their full CV and motivation letter by 11th September 2017 to termerrodriguez@gmail.com
